NURSES' HEALTH STUDY

Channing Laboratory 181 Longwood Avenue Boston, MA 02115-5804 (617) 525-2279 Fax (617) 525-2008 www.NursesHealthStudy.org

This is your ID →

Dear Colleague:

In the summer of 1976 you and 121,700 other registered nurses embarked on a remarkable journey to expand our understanding of the health of women. Twenty-eight years later, the fruits of our collaboration are bountiful. Hundreds of scientific papers have been published and, as a result, many of the facts that people take for granted about health and diet have come from the Nurses' Health Study. We humbly thank you for making this possible through your dedication, enthusiasm and loyal participation.

The attached questionnaire updates your health status and continues our work. As always, your answers will be kept strictly confidential and used for medical statistical purposes only. Your prompt reply is helpful and greatly appreciated.

We value **each** member of the Nurses' Health Study as a colleague in our research, regardless of your employment (or retirement) status. Also, whether your health has been excellent or if you have been ill, your response is equally important. In short, **no matter what your circumstances**, **we need to hear from you!**

Your continued participation by documenting your lifestyle is fundamental to the validity of the study. It is with our deepest gratitude that we thank you again for the time and care that you have continued to offer to help us all learn more about women's health.

Best Regards,

Graham A. Colditz, MD, DrPH

Principal Investigator

Frank E. Speige, M.D.

Frank E. Speizer, MD Founding Principal Investigator

Do you have an e-mail address?

If you do, please print your e-mail address in the box so that we may send you occasional updates on the progress of the Nurses' Health Study.

Please print neatly and differentiate numbers and letters (e.g., 1 vs I or i, Ø vs O, 5 vs S)

We will <u>not</u> release your e-mail address to anyone!

INSTRUCTIONS

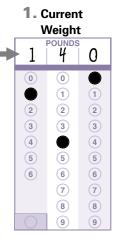

Please use an ordinary No. 2 pencil to answer all questions. Fill in the appropriate response circles completely. The form is designed to be read by optical-scanning equipment, so it is important that you keep any write-in responses **within** the spaces provided and erase any incorrect marks completely. If you have comments, please write them on a separate piece of paper.

Please fill in the circles completely.

Do not mark this way: 🗸 🔊

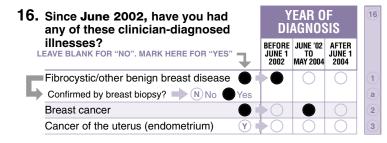

EXAMPLE 1: Write your weight in

...and fill in the circle corresponding to the figure at the head of each column.

NOTE: It is important that you write in your weight in addition to completing the corresponding circles. This allows us to confirm that the correct circles have been filled in.

EXAMPLE 2: Mark "Yes" bubble <u>and</u> Year of Diagnosis bubble for each illness you have had diagnosed.

- Please tear off the cover letter (to preserve confidentiality) and return the questionnaire in the enclosed postage-paid envelope.
- If your name and address as printed on this questionnaire are no longer correct or are incomplete, or if you are providing your e-mail address, please make any necessary changes on the letter and return it to us.
- Thank you for completing the 2004 Nurses' Health Study Questionnaire.

Federal research regulations require us to include the following information:

There are no direct benefits to you from participating in this study.

The risk of breach of confidentiality associated with participation in this study is very small.

Your choice to participate in this study is completely voluntary and you may decline or withdraw at any time without penalty.

Although complete information is important to the study, you may skip any question you do not wish to answer.

You will not receive monetary compensation for participating.

If you have any questions regarding your rights as a research participant, you are encouraged to call a representative of the Human Subjects Committee at the Brigham and Women's Hospital (617-525-3170).

a) Did you lose consciousness when you fell? No Yes, each time Yes, some times
