Dear Colleague:

The attached Nurses’ Health Study II “short form” continues our follow-up of the information which you first provided in 1989. We have made this questionnaire as brief as possible, knowing how busy your life can be. We would be extremely grateful to receive your completed survey in the next few weeks.

The validity of this major research undertaking depends directly on complete and accurate follow-up information for all study members. Your continued participation is critical whether or not you are currently active in nursing. As always, the information you provide is strictly confidential and will be used only for medical statistical purposes.

It is with our deepest gratitude that we thank you again for the time and care that you have continued to offer in furthering the study of women’s health.

Sincerely,

Walter Willett
Professor of Epidemiology, Nutrition, and Medicine
